

Monday 4th May 2020

Dear Parents and Carers,

Thank you for supporting your children with their learning at home. We are always looking for ways to support you more effectively, and we have chosen the platform Seesaw to do this whilst our site remains closed. See Saw will not be a source of additional work for your children to complete; pupils should continue completing the work in their take-home resources pack.

We will use Seesaw:

- To **support the children's take-home resources**, e.g. model how to write an essay.
- To share short **video clips** from your child's teachers to introduce learning and explain difficult concepts.
- To help **structure the school day**.
- To **receive work** from your children.
- To **give feedback** to the children.

Content should be checked each day from 9am and will support your child's progression through the home learning resources.

Data Protection

Seesaw adheres to the current guidelines for General Data Protection Regulation (GDPR). Our aim is to provide individual codes for your children to login ASAP. Content will be made available from **Monday 11th May**.

Next steps

We require parental consent to be able to use this software for your child's learning. Please click on the link here to complete the consent form. This will allow us to quickly get this setup for your child. Please can I ask that you complete this form by Wednesday 5th May.

Codes and instructions for setting up Seesaw will follow later in the week.

If you have any questions, please email us at office@millbankacademy.org.uk

Kind regards,
Mrs C. Jefferson
Headteacher
